

Pakistan's Written Statement

Agenda Item-2

Progress of decisions during 7th meeting of the committee on statistics, has been elaborated in this agenda. The committee decisions are supported regarding advancing official statistics to meet the 2030 agenda, navigating policy with data to leave no one behind, main streaming of gender in the working on statistics, work for statistics on disaster and environment, civil registration and vital statistics, accounting system for national accounts in the NSOs, use of big data to generate official statistics, and capacity building in the NSS of each member country. The progress on the decisions is highly appreciated.

It is proposed that maximum countries may be involved in the working groups/sub-committees/expert groups for different areas so that all the countries could be benefitted from the working on the particularly new areas like big data, environment and disaster accounts etc.
