3(a) Monitoring progress in line with the document entitled "Advancing official statistics for the 2030 Agenda for Sustainable Development"

To facilitate the reporting and monitoring of the progress of the 2030 Agenda for Sustainable Development, Singapore DOS has been providing access to statistics on SDG indicators on our SingStat Website dedicated page on SDGs [www.singstat.gov.sg/find-data/sdg].

- Summary of progress towards commitments contained in the collective vision and framework for action and the Declaration on Navigating Policy with Data to Leave No One Behind

We wish to highlight that some data items used in the 'Data on performance indicators' table could be outdated. For example, the latest year of assessment for '4a (a.4) World Bank Statistical Performance Indicators' is year 2019. ESCAP may consider using indicators with more recent data for a more up-to-date comparison.
